

MAP4LIFE BLUEPRINT

This unique personal development tool comprises a simple, but structured 5-step methodology that can take you from where you are to where you want to be. Since its inception in 1999, it has achieved amazing results. Testimonies of ordinary people achieving extraordinary things; 'Homeless to Harvard', 'Paralytic to Cape Epic', 'Outcast to Oscar', 'Home Executive to CEO', 'Employee to Employer' are just some of the many stories received.

Why have a MAP?

Everyone has dreams. What they have not been taught or what they have failed to recognise, is that every thing that exists was preceded, not only by an idea or dream, but also by a written document Master Action Plan or MAP.

Think about it for a moment, how many people do you know that could show you their written documented MAP? The need for this tool is immense.
